Full Stack Developer

DION
POWERING FINANCIAL SOLUTIONS

dionglobal.com

About Dion

Dion Global Solutions is a global trusted technology provider to the financial services industry, providing solutions to retail, commercial banks, institutional traders, investment banks, private client wealth managers and stockbrokers.

In the UK, we have expertise in building solutions for wealth management and we have been supporting the growth of several wealth management firms in the UK for over thirty years. Over the years, the solution has evolved to automate the complete front to back office processes within a wealth management firm. Most recently, our Wealth Intelligence Platform (WIN) introduces new modules and incorporates many of our award-winning solutions hosted on the Amazon cloud (AWS) accessed via the latest browser-based presentation layers.

We are dedicated to using the latest technology and methodologies to provide solutions to our clients and equally exciting development opportunities for our staff. We have a relaxed, entrepreneurial feel embedded in a strong history in the wealth management space. We enjoy a flat organisational structure which allows us to employ talented people to work together and progress within the company and our open culture encourages new ideas and driving improvements for the business and the wealth management industry needs.
